EXPERIENCE

Intern | Infowiz

Worked on Secure Bank Application.

- Developed a secure bank application for user authentication and financial transactions.
- Implemented JWT to enhance security.
- Built back-end services with Node.js, Express, and MongoDB for secure data handling.
- Integrated authentication features using **React.js**.
- Utilized Multer for file handling, allowing users to upload and manage documents securely.
- Integrated email-based **OTP** for additional user verification during login.
- Enabled **PDF downloads** for transaction receipts and account statements.

PROJECTS

Family Financial Management

A full-stack MERN application to manage family expenses and income efficiently with insightful data visualization. Helps users stay on top of their budget, transactions, and financial planning.

Technologies: React.js, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, Postman, Git & Github.

Key Features:

- User Authentication: Secure login and registration with password encryption.
- CRUD Operations: Full-featured management of income and expense records.
- Transaction History: View all past transactions with sorting and filtering.
- **Visual Data Insights:** Integrated dynamic charts (bar, pie, and donut) to represent monthly trends, income vs expenses, and category-wise spending helping users understand and manage their finances better.
- RESTful API Integration: Backend APIs for efficient communication between frontend and server.

Dice Game

An interactive frontend project where player guess a dice roll outcome, following the rules player gain or lose the score. **Technologies**: React.Js, TailwindCSS, Node.js

Key Features:

- Interactive UI: Designed a dynamic and responsive user interface with Reac.tJs and TailwindCSS to enhance user experience.
- **Dice Roll Simulation:** Engineered a realistic dice roll simulation using JavaScript to generate and display random dice outcomes.
- State Management: Utilized React.Js state management to maintain and update the game's state effectively.

EDUCATION

Bachelors of Computer Application June 2025

Govt. Degree College Nagrota Bagwan | Kangra, HP

Secondary School Education March 2022

Govt Modal Senior Secondary School Mandal | Kangra, HP

High School Education March 2019

Govt High School Jheol | Kangra, HP

SKILLS & INTERESTS

Technical Skills: Frontend: React.Js, HTML, CSS, Tailwind CSS, JavaScript Backend: Node.js, Express.js, Django Databases:

MongoDB (Atlas), MS Access **Tools**: Postman, Figma, Git, Linux, Wordpress

Interests: Workout, Music
